Subject: Drinking Water Well Outreach Materials for East San Joaquin Agricultural Water Quality Coalition

This is a message from the California Regional Water Quality Control Board, Central Valley (5).

Dear ILRP Stakeholders and Interested Parties:

On 7 February 2018 the State Water Board revised the Waste Discharge Requirements (Order) for the Eastern San Joaquin River Watershed. The revised Order includes a new drinking water well monitoring requirement. **Beginning 1 January 2019**, East San Joaquin Water Quality Coalition (ESJWQC) members must monitor drinking water wells on their enrolled parcels for nitrates. Outreach materials were sent out on 12 December 2018 to all ESJWQC members. The outreach materials can be found on our new drinking water webpage.

https://www.waterboards.ca.gov/centralvalley/water_issues/irrigated_lands/drinking_water/

The outreach materials include:

- Drinking Water Well Monitoring Brochure
- Quick Reference Guide for Members
- Drinking Water Member Information Form
- Drinking Water Notification Template

We will also be discussing this requirement at our next stakeholder meeting:

Location: Merced County Farm Bureau

Address: 646 South State Highway 59, Merced

Date: Wednesday, 9 January 2019

Time: 10:00 am – 1:00 pm

Happy Holidays,

Robert Ditto, CPESC
Compliance & Outreach Unit Supervisor
